Location Worldwide

We deliver premium LED display systems with P2 and P4 resolutions, available in flat, curved, and stage-integrated configurations.

Ideal for both indoor and outdoor events, our systems cover areas up to 300 m², delivering vivid visuals that engage and captivate your audience.

Whether for concerts, conferences, or outdoor installations, our LED solutions are designed for reliability and visual impact.

Features

01

Indoor / Outdoor

Designed for any environment, from indoor conferences to open-air concerts.

02

Flat, Curved, Stage LED

Flexible screen formats that adapt perfectly to your stage design.

03

Modular / Scalable

Expand your setup easily to match any event size or layout.

04

High Brightness, HD Clarity

Crystal-clear visuals even under strong lighting conditions.

05

Fast Setup & Modular Panels

Quick installation and precise alignment to save time on-site.

We design, build, and rent custom stages in all shapes and sizes, tailored to your vision and venue.

Our experienced team combines innovative design with structural integrity, ensuring every stage is safe, functional, and visually impressive.

Whether you need a circular stage, multi-level platform, or a themed stage for a production, we'll collaborate with you to make it a focal point of your event.

Features

01

Modular Stage Systems

Build custom stage sizes and shapes with total flexibility.

02

Safe Loading & Rigging

Engineered for maximum stability and performance safety.

03

Custom Shapes & Theming

Match your event's identity with unique stage configurations.

04

Quick Assembly / Disassembly

Efficient setup that keeps your production schedule tight.

05

Structural Certifications & Safety

Fully compliant systems for professional-grade reliability.

Our lighting rental system is built to transform spaces. We offer a full range of options including beam lights, spot lights, profile lighting, and LED stage lighting solutions.

Trusted by professionals in concerts, TV productions, theatres, hotels, and entertainment venues, our lighting systems elevate your production to the next level. Whether your event is grand and dynamic or intimate and ambient, we customize lighting that uniquely matches your vision.

Features

01

Dynamic Beam / Spot / Profile Lights

Create energy and drama with motion-controlled lighting

02

LED Stage Lighting

Vibrant colors and clean brightness for every performance.

03

DMX Control & Automation

Seamless integration with modern lighting control systems.

04

Color & Movement Effects

Bring emotion and rhythm to your stage visuals.

05

Design Support & Programming

Our experts help tailor lighting scenes to your event's mood.

We offer sound rental systems in small, medium, and large configurations — perfect for any scale of event.

From corporate meetings to large concerts, our equipment delivers clear, powerful audio with precision and reliability.

Our packages are tailored, tested, and optimized for your venue and audience size.

Features

01

Scalable PA Systems

From intimate meetings to massive concerts, crystal-clear sound guaranteed.

02

Line Arrays, Subwoofers, Monitors

Complete coverage and depth for every audience size.

03

Digital Mixing Consoles

Precision control and balanced audio for professional output.

04

Audio Engineers On-Site

Experienced technicians ensure perfect performance.

05

Acoustic Tuning & Optimization

Tailored sound design that fits your venue's acoustics.

For multinational conferences, summits, or events with multilingual speakers, we provide advanced translation equipment and systems.

Our offerings ensure seamless communication across languages, enabling global participation without barrier.

With expert technical support during the event, we facilitate real-time translation with clarity and confidence.

Features

01

Interpretation Booths

Professional spaces for interpreters to work comfortably and efficiently.

02

Wireless Systems & Receivers

Hassle-free mobility and crystal-clear sound for participants.

03

Digital Simultaneous Interpretation

Real-time, multi-language support with minimal delay.

04

Multi-Channel Audio Output

Manage several languages simultaneously with seamless switching.

05

Technical Staff Support

On-site specialists ensure smooth operation throughout your event.
